Subject: Rep. Bonamici inquiry on PH contracting
Date: Monday, April 25, 2016 10:00:01 AM

Hi Cami or Davis,

Do we have current online information about Superfund contracting, and is there anything specific that we can say for Portland Harbor? Below is an inquiry from Rep. Bonamici's office.—Cindy, x. 1815

Last week my boss met with members of the Oregon Building and Construction Trades Council and they asked us to ask the EPA how contracts will be bid for, for the Portland Harbor Superfund site. Of course my boss is very supportive of local, union labor working on the project.

Wanted to see how the Superfund projects usually work, to see if they go through the EPA, or post-record of decision, if certain parties are responsible for organizing and hiring contractors for the clean-up. Also, wanted to confirm that union labor is required?
